e-TC (e-Transfer Corner) is a transdisciplinary center with supraregional networking "teaching through research" in a corner of Marburg University Town, Germany. Represented by the special consultation of the academic experts for promoting „*Pax Perpetua Visionary Education*“ with Interregional Cooperation and Innovative Solution, especially by the implementation of „*Schumpeterian strategy*“ for the dynamic interregional development with „*Husserlian phenomenological approachment*“. The e-TC also organizes regular „*Summer School*“ and transdisciplinary event („*Visiondium*“) or Vision Compendium, including „*meta-science*“ (*Metawissenschaft*), as a continual project for presenting innovative core vision in the Loreley Valley.

More „*e-TC Extension Programs*“ (Course, Training, Conference, Workshop, etc.) will be organized separately.
